

[GP19] Student Appeals

It is integral for a Students' Association representative to be present at Algonquin College academic appeals to ensure students are being treated according to their policies and process. This policy is intended to clarify the Association's involvement structure in appeals.

1. The Board is responsible for ensuring that both process and deliberation follows a fair appeals process. To achieve this, the Board will:
 - (1) Read and understand the College's appeals policies and the Student Support appeals package,
 - (2) Provide judicious and unbiased ruling according to the College's appeals procedure,
 - (3) Ensure a director or delegate is present to represent the SA on all student appeals, and
 - (4) Direct the CEO to delegate any coordination of appeals as needed, according to availability and experience.
2. If no directors are able to attend an appeal and the Board is unsuccessful in negotiating another date, the CEO or their delegate will attend.
